CS 346: Meeting Minutes

Date: _____Feb 9_____   Team: _215_____

Present: Simon, Vansh, Dan, Terence

Absent:

Agenda

Discussing our approach to sprint 1

Notes

GUI heavy application - start working on it this sprint

It might be hard to have all 4 of us working on GUI (merge conflicts, we can try to tackle some other layers

Decisions

Simon and Dan are going to work primarily on GUI, Terence and Vansh are going to work primarily on web service and data persistence

Start working towards some of the webservice and data persistence features

Actions

Created a baseline border pane to start our application
